Yuqi Sun (Kevin) yuqisun@umich.edu
Sept 2026

Education

The University of Michigan, College of Engineering, Ann Arbor, MI
Computer Science BSE, Robotics BSE, Sept 2025 – May 2029 (anticipated), GPA: 3.92
University Honors, Dean's List, William J. Branstrom Freshman Prize, Engineering Honors
Max Kade Haus German Residence - Member
Manipulation and Machine Intelligence Lab - Research Assistant
Michigan Data Science Team - Project Lead, Education Committee, Workshop Lead

Rheinisch-Westfälische Technische Hochschule Aachen, Aachen, NRW
Researcher, May 2026 – July 2026
Supervisors: PD Dr Elma Kerz, PD Dr Daniel Wiechmann, and Yu Qiao, M.Sc

The Independent Schools Foundation Academy, Hong Kong, HK
Degree: International Baccalaureate (IB) Bilingual Diploma, Aug 2021 – June 2025, Score: 43/45
Summa cum laude(2022, 23), Magna cum laude(2024), Academy Honors(2025)
Honorary Shuyuan STEM Research Scholarship (2021, 22, 23)
ISF Academy Special Talent Scholarship (2024)
IBDP Computer Science Subject Award (2024, 25)
Information Communication Technologies Award (2023)

Research & Publications

Shanghai Jiaotong University, Shanghai, China
First Author (Published), July 2025 – August 2025

- Paper title: "Road Sign Classification with a Denoising Pipeline Approach."
- Presented at the **7th International Conference on Intelligent Autonomous Systems**: Link.
- Presented at University of Michigan 2nd Annual Computer Science & Engineering Research Symposium and 2026 Undergraduate Research Symposium

ISFA Shuyuan Research Program, Hong Kong, HK, Dec 2023 – May 2025
First Author (Published), June 2023 – May 2025

- Paper title: "Evaluating the Feasibility of Using Vertical Take-Off and Landing (VTOL) Aircraft to Replace Helicopters for Rescue Missions."
- Paper published in Bauhinia Journal, Volume X, Issue 2, Pages 9–21 (ISSN 2409-4064).

First Author (Published), April 2023 – December 2024

- Paper title "Development and Evaluation of a Low-Cost Open Source Power Monitoring and Recording System for Solar Panel Efficiency Analysis."
- Paper published in IEEE 2023 YE conference: Link.

First Author (Published), December 2021 – April 2022

- Paper title "The Potential of Tracking Solar Panels in Hong Kong Compared to Fixed Panels."
- Condensed poster presentation published by **American Geophysical Union (AGU)**: Link.

Professional Experience

Everstory, Ann Arbor, MI
Software Developer, Nov 2025 - May 2026

- Developed a pipeline to streamline user input from google forms response to AWS and Supabase

Crostwick Industrial, Hong Kong, HK
Contractor, Jan 2024 – June 2024

- Contracted to design and build an office security system operated through verified phone connection on the office Wi-Fi. Distributed at a per-unit cost of 1,500 HKD.

En-Trak, Hong Kong, HK
Software Developer, Mar 2023 – Oct 2023

- Developed APIs to fetch data for En-Trak TEP, an application that tracks power usage and sustainability data for organizations. Deployed the API on the En-Trak TEP application since 2023. Used by companies, conference centers, and schools.

Qirui Pay, Hong Kong, HK
Founder & Developer, First Author (Published), March 2022 – May 2025

- Programmed and developed Qirui Pay, an app permitting organizations to issue their own private currencies pegged to local fiat; the use cases are for organizations running their internal centralized markets trading items for exclusive events, carnivals, or fundraising.
- Presented a paper examining the technology, security, and use cases for Qirui Pay during its trial period from 2022–2023, during which time it recorded around 52,000 USD in transactions, at the 49th International Exhibition of Inventions Geneva; received a Silver Medal. Publication: Link
